Solutions Matrix	18

Crestron Flex. One solution that works. For everyone. Everywhere. Everyday.

Start the Day

Check calendars. Connect with coworkers. And do it all with one consistent experience.

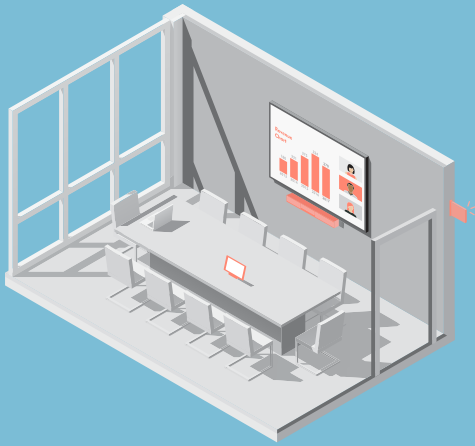

Book an Impromptu Meeting

See which huddle room is open and book it on the spot. Crestron Room Scheduling touch screens connect to your calendaring system.

Weekly Team Status Meeting

Share content. Connect teammates. Transfer calls from cell to tabletop. The Crestron Flex M-Series tabletop conferencing system does it all—with just one touch.

Global Check-In

Make sure everyone sees and hears all with the Crestron Flex B-Series Smart Soundbars. One touch connects everyone in the room with perfect picture and crystal clear audio. Let the meeting begin.

Late Day Training

Join a session. Lead a class. Share important company-wide updates. Crestron Flex C-Series Integrator kits make complicated spaces easy with an intuitive interface.

Easy to Deploy and Manage

Every solution is easy to deploy, with few wiring requirements. And simple to manage, monitor and evolve via Crestron XiO Cloud™.

Easy to Use

Crestron Flex delivers one-touch simplicity in every room. One seamless experience for everyone, everywhere.

Easy on the Bottom Line

Change platforms, add products or deploy room systems, Crestron Flex gives you total flexibility, affordability and efficiently.

Simple to deploy. Easy to use.

From IT to C-Suite—
it's just this simple.

One Consistent Experience

Engineered to deliver flawless video, crystal clear audio, and instant sharing.

One-Touch Simplicity

Any room, anywhere, every presentation is just one click away.

One Platform

Every device deployed, managed, and maintained on one cloud-based platform built in Microsoft Azure.

One Connection

24/7 support anywhere and everywhere you may be.

Only Flex Can.

One solution that works with what you have today.
And what you need tomorrow.

Bring Your Own Device

Connect any laptop via a USB and Crestron Flex supports any of the most popular collaboration platforms. Now that's teamwork.

OR

Choose a Built-In Solution

Get the ease of Microsoft® Teams or Zoom software natively integrated into Crestron hardware.

Microsoft® Teams is natively integrated into every Crestron Flex product. Giving you the flexibility to create a complete room system or simply add a device.

OR

Crestron Flex offers the simplicity of Zoom Rooms software built right into every device. Now that's simple.

Desktop Phone

Crestron Flex P-Series

Initiate a conference call on your cell. With one touch move the call to your desktop to free your computer. Search contacts. Check status of your projects. Find your next meeting. It's not a phone; it's a hub for collaboration between peers, and between devices. And Crestron makes it work seamlessly.

IDEAL ROOM TYPES

Private Spaces.

CERTIFICATIONS

KEY FEATURES

POWERFUL SOFTWARE: Manage contacts | Join or book a meeting | See your day with one touch

INCREDIBLE AUDIO: Exceptional HD sound quality for crystal-clear speech

Room Scheduling

The modern workplace is fast-paced, flexible, and dispersed. You need a scheduling platform that not only keeps up with you, but makes everyone more efficient, connected, and collaborative across all spaces while meeting your booking requirements. Crestron makes it simple and convenient to locate and book available meeting spaces from wherever you are; on your mobile, outside the room, or inside the room. The system directly connects to your software platform, so people can book rooms on the spot. And the system is intelligent enough to return rooms to inventory when employees no-show, thereby optimising usage.

A smart workplace starts with a smart scheduling system.
Compatible with most popular calendar and scheduling software systems.

Crestron XiO CLOUD™

IoT-Based platform

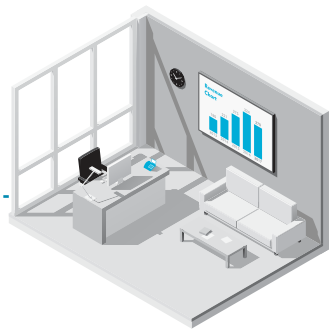

Winner of the 2018 Microsoft Global Partner of the Year Award for IoT, Crestron XiO Cloud is a revolutionary IoT-based service that enables you to securely deploy, proactively manage, monitor, and evolve workplace technology anywhere in the world through a standard web browser, and reduce associated complexities.

Hosted on the Microsoft Azure® IoT platform, and natively built into Crestron products, Crestron XiO Cloud delivers up to 90% reductions in installation time and dramatic improvements in device uptime. Most routine maintenance tasks, such as logo updates, can be performed from anywhere, automatically. Data gathered by Crestron XiO Cloud enables you to match new technology investments to actual usage and optimise your budgets.

Learn more: crestron.com/xiocloud

SUPPORTS AES, TLS, 802.1X, and
Active Directory® credential management

DEPLOY QUICKLY

Reduce installation time by up to 90%

MANAGE REMOTELY

Update settings and firmware from anywhere via the centralised dashboard

MONITOR INSTANTLY

Resolve events remotely to improve device uptime

EVOLVE CONFIDENTLY

Make sure your workplace technology supports how people work

48%

of organisations say they adopted cloud-based services because it's a better cost model compared to traditional deployment methods.

About Crestron

Crestron is the world leader for Smart Building Technology. Our ecosystem of UC, network video, audio, and control products is designed to help drive greater efficiency and productivity across the modern workplace while simplifying monitoring, management, and control at a global scale.

Crestron technology empowers the world's leading commercial enterprises and universities, as well as government agencies, to be more effective and successful throughout the day, every day. Crestron was recognized as the Microsoft 2018 Partner of the Year based on the innovative way the Crestron XiO Cloud technology provisioning and management service, built on the Microsoft Azure platform, ties together the E2E cloud to device experience to improve the modern, intelligent workplace.
